Dear Sir,

The Bovi fishermen of Ajumbe village in Kasargode Taluk, South Kanara have requested for the opening of a fisheries elementary school at Manikoth. At present there is no convenience for them to send their children to schools as there are no schools in the locality. These fishermen are backward and really deserves encouragement and support. I understand that a proposal have been submitted for obtaining sanction of the Government for opening of the school in '55-'56. I request that the proposal may be kindly sanctioned so that the unfortunate children of the locality may be benefited. I wish this request will be complied with.

Yours faithfully,

No.111392/X1/54-2 dated 3-2-1955.

Sir,

Sub: Education - Fisheries - opening of a Fisheries Elementary School at Manikoth in South Kanara district - proposals.

9604

1) Manikoth is a fishermen colony in Annoor village of Kasaragod sub Taluk in South Kanara district. It has a population of about 500 fishermen. There are nearly 100 fishermen(Adults) with 6 pairs of boats and nets. There are 75 children of bar fishermen in the colony of which only 15 are attending the nearest schools and the remaining are not attending any school. Besides the regular fishermen, there are about 60 children of Thiyyas of whom 20 belong to the families who are engaged in fishing. This place is about 2½ miles from Chithari Board Elementary School and Vellikoth Board Higher Elementary School. The other two schools are Muslim Board Elementary School 1½ miles away and the Board and Mission School at Kasaragod, 2½ miles away. All the four elementary schools are far away from the locality, and naturally the parents do not want to send their young children to far off places.

2) In July 54 the fishermen of Manikoth presented a petition to the Assistant Director, Mangalore requesting the opening of a Fisheries Elementary School in their village. A copy of their petition is submitted herewith. The District Educational Officer, South Kanara, Mangalore has also recommended the opening of an Elementary School at Manikoth in his letter L.Dis. 9435-E2/54 dated 16-11-54 (copy submitted for favour of perusal). The local people have given a written undertaking to construct a building according to requirements and place it at the disposal of the department for the rent to be fixed by the Public Works Department. The building will be constructed by them immediately on receipt of orders of Govt. sanctioning the opening of the school.

3) The financial implications in opening of school are as follows:--

R E C U R R I N G:-	Rs.	A.	P.
Pay of 3 Higher Elementary Grade teachers at Rs.30/ per mensem	1080	0	0
Dearness allowance of 3 Higher Elementary grade teachers at Rs.19/- per mensem	684	0	0

Copy of petition of Mukaya Fishermen of Manikoth P.O.Ajanur.

We humbly beg to bring the following grievances before you and pray for early and favourable disposal.

We are Mukya fishermen by cast and dwelling in a colony having more than 500 population in Manikoth in Ajanur village in Kasdrug Sub Taluk. There are more than 75 children between the age of 5 and 14 in our midst, and we are ashamed to say that most of them are living without school education like their fathers and mothers. There is no school in our midst. There are 2 schools North and South of us, one district Board school and one Board, Mapla school which are 2½ miles and 2 miles away respectively from us. Our nearest fisheries school is at Ajanur which is also some 3 miles from us. We had sent about 40 of our children to that school. But owing to the hot sun in the sunny season and some canals with strong currents in the rainy season our children could not afford the strain of going to that school. Thus such attempts were also failed. Now our children do not get proper education.

In the circumstances cited above we beg to pray to the Asst. Director to take necessary action to be open a Fisheries Ele. school in our midst as soon as possible.

Copy of letter L.Dis. No.9435 E2/54 dated 16-11-54 from the District Educational Officer, South Kanara, Mangalore.

The D.E. has submitted proposals for the opening of a fisheries elementary school at Manikoth in South Kohala district during 1955-56. The proposal involves the employment of 3 stipend elementary grade teachers besides expenditure on rent, contingencies, furniture as detailed at A in para 5.b cf. Based on the average pay of the posts, the extra expenditure involved in the proposal is Rs 3.000/- roundly recurring and Rs 1.700/- non-recurring.

Agri. and H.&L.A. propose to agree. The proposal calls for the following remarks in this dept.

copy of the petition of Mukaya fisherwen of Nainkoth at p. 7 of. That there are 2 schools, one situated about 2½ miles and the other 2 miles away from Nainkoth and that a fisheries school is located about 3 miles away from the particular place. It is also seen that there are about 60 fisher children of school age in the locality now without education.

ordinarily such proposals are considered only as part II schemes. But there is some force in the grounds referred to at A on p. 7 of. This dept. may as a special case agree to the opening of a fisheries elementary school with thirty staff.

There are about 60 children of school age and as it is not clear how many of them will attend the school even if one is to be opened, it seems desirable to start the school, first the school year 1955-6 with 2 theories & the grade teachers and restrict other items of expenditure as indicated below.

The rent on buildings proposed seems somewhat excessive. It seems desirable to allow a rent not exceeding Rs 40. The non-recurring expdre on furniture, books also may also be limited to Rs 1,200 for the present. The period of practice in respect of the 2 teachers
